TITLE : Real time river water quality monitoring and control system

IBM CLOUD

This screenshot shows the top portion of the IBM Cloud Dashboard. The header includes the 'Dashboard' title, links for 'Edit dashboard', 'Upgrade account', and a prominent 'Create resource' button. Below the header, a 'For you' section displays a horizontal carousel of cards. The first card is 'Build', which is highlighted with a blue background and a 'Getting started' button. Other cards include 'Monitor your resources', 'IBM Watson Machine Learning', 'View APIs and SDKs', 'Set up your IBM Cloud account', and 'Browse a data catalog'. Each card provides a brief description and a 'Getting started' button with an estimated time. Below the carousel, there are sections for 'User access' (with a 'Manage users' link), 'News' (featuring a Gartner Magic Quadrant article), and 'Planned maintenance'.

This screenshot shows the bottom portion of the IBM Cloud Dashboard. It continues the 'For you' carousel with cards for 'Discover the Watson Internet of Things (IoT) Platform', 'Create and deploy an application', 'Create an OpenShift cluster', 'Set up your IBM Cloud account', and 'Create a data catalog'. Below the carousel, the dashboard is divided into four main sections: 'News' (with a Gartner article and a 'View all' link), 'Recent support cases' (with a 'View all' link), 'Planned maintenance' (with a 'View all' link), and 'IBM Cloud status' (with a 'View all' link and a world map visualization). A blue chat icon is visible in the bottom right corner.

For you

Select an option ▾

Build

Explore IBM Cloud with this selection of easy starter tutorials and services.

Monitor your resources

Get visibility into the performance and health of your resources.

[Getting started](#)[5 min](#)

Discover the Watson Internet of Things (IoT) Platform

Use the built-in web console dashboards to monitor your IoT data and analyze it in real time.

[Getting started](#)[10 min](#)

Create and deploy an application

Browse our starter kits, and then select one to jump start the process to create and deploy your app.

[Getting started](#)[5 min](#)

Create an OpenShift cluster

Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud.

[Getting started](#)[20 min](#)

Set up your IBM Cloud account

Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources.

[Getting started](#)[10 min](#)

Create a new account

Automatically create and manage your account settings.

PYTHON INSTALLATION

python
for
windows

Setup was successful

New to Python? Start with the [online tutorial](#) and [documentation](#). At your terminal, type "py" to launch Python, or search for Python in your Start menu.

See [what's new](#) in this release, or find more info about [using Python on Windows](#).

 **Disable path length limit**
Changes your machine configuration to allow programs, including Python, to bypass the 260 character "MAX_PATH" limitation.

Close
