

PREREQUISITES

TEAM ID : PNT2022TMID27339

TITLE : Real time river water quality monitoring and control system

IBM CLOUD

Team lead

The screenshot shows the IBM Cloud Dashboard for a team lead. The top navigation bar includes 'Dashboard', 'Edit dashboard', 'Upgrade account', and a 'Create resource' button. The main content area is titled 'For you' and features a 'Build' section with a blue background and a 'Monitor your resources' section. Below these are several cards for 'IBM Watson Machine Learning', 'View APIs and SDKs', 'Set up your IBM Cloud account', and 'Browse a data catalog'. Each card has a 'Getting started' button and a duration. The bottom section includes 'User access', 'News' (with a 'View all' link), and 'Planned maintenance'.

Team member 1

The screenshot shows the IBM Cloud Dashboard for a team member. The top navigation bar is identical to the team lead's view. The main content area is titled 'For you' and features a 'Build' section with a blue background and a 'Monitor your resources' section. Below these are several cards for 'Discover the Watson Internet of Things (IoT) Platform', 'Create and deploy an application', 'Create an OpenShift cluster', 'Set up your IBM Cloud account', and 'Create a data catalog'. Each card has a 'Getting started' button and a duration. The bottom section includes 'News', 'Recent support cases', 'Planned maintenance', and 'IBM Cloud status'.

Dashboard

For you

Build

Explore IBM Cloud with this selection of easy starter tutorials and services.

Getting started5 min

Monitor your resources

Get visibility into the performance and health of your resources.

Getting started10 min

Discover the Watson Internet of Things (IoT) Platform

Use the built-in web console dashboards to monitor your IoT data and analyze it in real time.

Getting started5 min

Create and deploy an application

Browse our starter kits, and then select one to jump start the process to create and deploy your app.

Getting started20 min

Create an OpenShift cluster

Deploy apps on highly available clusters with Red Hat OpenShift on IBM Cloud.

Getting started10 min

Set up your IBM Cloud account

Learn how to set up your IBM Cloud account, manage your account settings, organize resources, and control access to those resources.
